

# The Power, I Wish I Had

By:Arya Papaiah

To Anika [my sister] for always loving animals like me

\*\*\*

If I could pick any power I wanted, it would be special, I could talk to animals like my power was treasure.

I would tell the cats to play with me and the dogs not to growl.

I could ask the horses if I could ride them and tell the wolves not to howl.

I could ask the birds to sing a pretty song.

I would tell the hamsters to roll over and the spiders to move away from my house so they do not scare me in horror.

I would ask the beavers to make a lodge and I would hang out with them all night.

I would tell the eagles to lift me up and give me a big flight.

I would ask the bees to make some honey for me and my family.

Then I would travel all around the world and visit Australia, where I can see animals of every shape and kind.

I would bounce with the Kangaroos and then sleep with the Koalas. I would tell them about my big journey.

Even though I do not have this power, it is ok because I am incredible me still today.
