

My Safest Person

The safest person in my life is my mother.

She is like a shining angel who always protects me from fear and sadness. Whenever I hold her soft hand, I feel as brave as a roaring lion.

My mother has a gentle, comforting voice that sounds like a sweet lullaby on a rainy night.

After school, she listens carefully to all my stories, even the silly ones. When I feel nervous before a test or scared during storms, she smiles warmly and tells me, "you are stronger than you think!"

Her words sparkle inside my mind like bright stars.

One day, I fell off my bicycle and scraped my knee badly. I started crying loudly, but my mother quickly ran to me and hugged me tightly. She cleaned my wound gently and

Stayed beside me until I stopped crying.

At that moment, I felt safer than a baby bird resting in its nest.

My mother is not only my parent but also my biggest supporter and best friend. Her hugs feel warmer than sunshine on a winter morning. No matter where I go, I know that as long as she is beside me, I always feel safe and loved.

Thank you for everything mom.
