

Halloween Night

The moon as red as blood
The sky as dark as night
It might be scary to some
It might give you a fright
I can see something moving
And it doesn't feel right
There is always something watching
On Halloween night
I can't tell what it is
But it moans like a ghost
It's very abnormal
And not like most
The night grows colder
And it gets harder to see
I can feel a cold chill on my shoulder
Like as if there was something coming after me
There is something in the darkness
And I know I can not hide
I can never escape it
On Halloween night

Audrey Herbert
