

My Garden's Superpower

By: Insiya Age: 6

My gardens superpower is that the flowers bloom and blossom in bright bold colors. It cheers me up and makes me feel joyfull when I'm in a bad mood. Also when I'm sad I like to sit under a big tree and have a picnic with a good view of the flowerbeds. When I walk through the rows of tulips and let my hand touch them those flowers soften the hardness of my feelings and body.

When I water the plants and flowers newborn seedlings grow from the soil in the ground, the flower buds open up AND... the garden bursts with colorful flowers blossoming evrywhere!

I looove the way flowers grow in spring. Bye! See you later! :) 🎵

A little seed for me to sow a little soil to help it grow a little sun a little shower a little wait and then a flower
