

Passport to Adventure

Name: Siddhiksha Dash

Class: Grade 1

Words: 246 words

School: Learning Community Charter School

City: Jersey City

State: New Jersey

When we go to a place, we need our passport to get on the airplane and visit new places we haven't visited before. Oh gosh! I never expected an awesome, roaring adventure. I can even imagine we have been everywhere. It looks like the entire world, from the USA and India to Dubai. My adventure's trip started from the USA to India.

At first, in India, we rode on a motorbike! The wind blew right through my hair, and the streets were so loud and busy with colorful cars, bikes, and honking horns. I felt like a carnival was going on all around us.

Then, I flew across the clouds to see tall skyscrapers and the palm trees in Dubai! I was totally mesmerized by the view of the world's tallest building, the Burj Khalifa. The view of the city from the 148th floor is amazing. Next, I moved on to the Museum of the Future. I couldn't believe my eyes to see a talking robot which can communicate in many different languages! The flying suit is very futuristic, and the Palm Island created inside the sea is breathtaking. Dubai is like a real-life city from the future. I am honored to be the 50,407,156th visitor to the wonderful world of Dubai.

Holding my blue passport makes me feel like a real explorer, ready for the next big flight back to the USA. I wonder where my imagination will take my airplane tomorrow!
